

# Homework Timetables for 2009-10

In response to the need to assist students in managing their time and resources in completing homework a homework timetable has been produced for each cohort of students.

The table below shows the evenings of the week that students in each half-year group (and in years 7, 8 and 9 classes belonging to that half-year group) should be completing homework in the different subjects he is studying. The evening chosen corresponds with the same day that he will have studied that subject in a lesson.
